

Commonwealth Connect

Virginia Public Wi-Fi Hotspots Map

Broadband Stakeholders,

With the help of local officials, schools, and libraries across Virginia, the Commonwealth Connect team and Virginia Tech have developed an interactive map of free, publicly available Wi-Fi hotspots that Virginians can access from a vehicle. Please share this map with your respective networks and constituents who many need access to the internet. Updates will be done weekly as we receive new locations. If you see any free public Wi-Fi hotspots missing or listed incorrectly, please email: commonwealthconnect@virginia.governor.gov.
