

DreamBox Learning

Online Resources for Remote Learning

[DreamBox Learning](#) can be used from home as part of a remote learning implementation during extended school closures or other special circumstances.

Please visit www.dreambox.com for more information or contact a representative below to learn more about:

- Real-time adaptive learning with no additional assessments
- Predictive Insights on grade level proficiency with no additional assessment
- Streamlining differentiated math instruction for grades K-8
- Strengthening core instruction with online manipulatives that capture *how* students solve problems, not just on their accuracy on answering those problems.
