

Understanding and Supporting the Development of Performance Assessment

Workshops presented by Jay McTighe and Chris Gareis and sponsored by VASS, VAESP, and VASSP

In order to ensure that Virginia's students are able to demonstrate the higher-level skills reflected in the 5Cs, it is essential that school administrators are prepared to actively support the design and implementation of high-quality performance assessment.

Jay McTighe and Chris Gareis have designed a sequence of two workshops to help school administrators understand and support the development and use of performance assessments in the classroom. Part I and II of "Understanding and Supporting the Development of Performance Assessments" will be offered for both elementary and secondary school administrators and other instructional leaders.

The links to more information and registration for each workshop are provided below:

Part I - October 18 - Williamsburg Doubletree Hotel
